Licensure Requirements⁶

Program meets licensure requirements in:

Arizona

The following do not have licensure requirements for this profession:

Alabama, Oklahoma, South Dakota

Additional Information:

A majority of our students complete their program in more than the suggested curriculum amount of time due to work, families, and timing of licensure board exams. We offer a part-time track so students are able to complete the 4 year program in 6 years which supports our students. Furthermore, many of our students choose to work part-time due to family, health or other constraints, or choose to create a practice in which they choose the number of hours they work or patients they see. Others seek to treat disadvantaged populations. As a consequence their earnings are less. Also, most of our graduates are self-employed and it generally takes 5-7 years to achieve top earning rates as they build their practices.
